

We build what you need

## Bodies Corporate

Some tips for dealing with Bodies Corporate

- If you are living in a development that has a Body Corporate, inform your Altec Design Consultant of this fact as he will be familiar in dealing with such organisations and will be able to assist you.
- If you want your Body Corporate to view your application favourably, present them with the intended Building Agreement, clearly showing your intentions, including a detailed design draft of exactly what you wish them to approve.
- A half-hearted request will often receive a protracted and half-hearted response. A professionally presented Building Agreement complying with the usual conditions will almost always prompt a quicker, more favourable response.
- Remember, your Body Corporate is there to assist and serve the development as a whole, so ask your Altec Design Consultant to help in any way we can.
